

# Discover Stressless®

The world's most comfortable  
and functional seating

THE INNOVATORS OF COMFORT™

## Why Stressless®

**MADE** in Norway.

**Patented features and benefits** available across the entire Stressless® recliner range, not just select models like our competition.

**Chiropractors Association of Australia** exclusively endorsed - the only recliner seating brand endorsed.

**More support springs** for greater comfort.

**Contoured steel frame** shapes to the body unlike competing brands.

**Patented cold cured foam comfort zones** allow you to sink deeper into the seat.

**Glide system** automatically adjusts to your body weight without the need for handles.

**Plus™ system** provides automatic and correct support for your head and lower back.

**Sleep function** allows you to lay flat with the simple adjustment of the headrest.

**Beech wood bases** are stronger than rubber wood used by competing brands and will never warp.

**Adjustable footstool**, also serves as an additional seat up to 120Kgs.

**Height adjustment ring or piece** for additional height requirements.

**Extensive choice of wood, top grain leathers and fabric colours** to choose from.

**Closed loop system** used to treat our steel eliminates the release of toxicants during manufacturing.

**Environmentally friendly water based stains** are applied using recycled running water that eliminates dust.

**Foam moulded directly over the frame** provides a proper contour for your body.

**Balance Adapt™** provides a feeling of weightlessness with the gentle pivot function.

**Leg Comfort™** is faster, longer and more adaptive in length than its competitors.

**MADE IN NORWAY**  
SINCE 1934
